

# KOOPL – HOW TO PLAY

Download the kooPl app from Play Store or App Store.

DIFFICULTY

1. Separate the cards into two groups: image cards in one group; word cards in another.
2. Shuffle each group of cards.
3. Spread the cards out on the table or floor in two groups – the image cards in one group and the word cards in another group, with the image/word side facing up.
4. Choose an image card, and say the word that is pictured. Choose a word card, and say the word.
5. If the word is correct – and the word matches that of the image card – the player wins those cards and gets to keep them. The player also gets to go again.
6. If the words are not the same, or if the player couldn't say them, the cards remain where they are.
7. If the player does not know the word, maybe one of the other players can help? If not, scan the card with the app to learn the word.
8. If the players are in doubt as to whether the word the player said was correct or not, you can scan the card to find out. If a player scans a card, no other player can pick that card for a round.
9. The player to the left goes next.
10. Remember the words on the cards.
11. Pay attention, memorize, and learn the words the other players are playing.
12. The game is finished when all the cards are won.
13. The player with the most cards wins.

1. Separate the cards into two groups: image cards in one group; word cards in another.
2. Shuffle each group of cards.
3. Spread the cards out on the table or floor in two groups – the image cards in one group and the word cards in another group, with the image cards OR the word cards facing up, the other group facing down.
4. Choose an image card, and say the word that is pictured. Choose a word card, and say the word.
5. If the word is correct – and the word matches that of the image card – the player wins those cards and gets to keep them. The player also gets to go again.

11. Pay attention, memorize, and learn the words the other players are playing.
12. The game is finished when all the cards are won.
13. The player with the most cards wins.

TIP: FIRST TIME PLAYING A THEME OR PACKAGE, IT'S A GOOD IDEA TO «TEST RUN» ALL THE WORDS FIRST.
